## Health Message

### ***Good Sabbath Church!***

***Isn't it amazing that we can find healing and powerful nutrients in all types of plant-based food? If you want to give your immune system a boost, eat plenty of blueberries, blackberries raspberries strawberries, oranges and cranberries from the fruit family. You can also get antioxidants in the veggie family from kale, green beans, and spinach.***

***Grains, fruits, nuts, and vegetables constitute the diet chosen for us by our Creator. These foods, prepared in as simple and natural a manner as possible, are the most healthful and nourishing. They impart a strength, a power of endurance, and a vigor of intellect that are not afforded by a more complex and stimulating diet."*** (EGW Ministry of Healing)

***May God bless your journey to good health,***

***Sister Sandra Torres***
