Health Message

Sabbath Blessings Family!

Did you know that your body weight is approximately 60% water? Your body uses water in all its cells, organs, and tissues to help regulate its temperature and maintain other bodily functions. Because your body loses water through breathing, sweating, and digestion. It's important to rehydrate by drinking fluids and eating foods that contain water.

Ellen White Quotes about water:

“Water is the best liquid possible to cleanse the tissues... Drink some, a little time before or after a meal.”

“Pure air and water, cleanliness, a proper diet, purity of life, and a firm trust in God are remedies for the want of which thousands are dying; yet these remedies are going out of date because their skillful use requires work that the people do not appreciate.”

May God bless your journey to good health,

Your Sister in Christ,
Sandra Torres

REGULAR MEETINGS

Church Beautification	1st and 3rd Sundays - help is still needed to clean outside the church. For more details, speak to Margarita Fernando.
Fellowship Lunch	1st and 3rd Sabbaths - after Divine Worship.
